BACHELOR OF COUNSELLING

(Part-time Programme)
The inclusion of personal development in counsellor education has been adopted by quality education programmes internationally. Our school's counselling centre, C-Three (Connect • Counsel • Choices) provides personal development sessions for trainee counsellors to enhance self-care, promote personal growth, strengthen therapeutic skills, and as partial fulfillment towards the Counselling programme requirements.

This programme prepares graduates to function as professional counsellors. Graduates may choose to continue with the Master of Counselling at Singapore University of Social Sciences (formerly known as SIM University) (recognised by the Singapore Association for Counselling, SAC). Completion of 600 hours of face-to-face counselling within 3 years of their Masters graduation qualifies them for membership as registered SAC counsellors.

Why is Singapore University of Social Sciences Unique?

Studying in Singapore University of Social Sciences means that working adults are able to enrich themselves academically without compromising their careers, families and social lives. All our classes are conducted in the evenings and during weekends on campus. To supplement the classes, study guides are provided so that self-study is possible to complement classroom learning.

Application of gained knowledge and skills is immediate as the curriculum is designed to be practical for working adults, resulting in greater knowledge retention and assimilation.
