A CALL TO ACTION

DEAR PROSPECTIVE STUDENTS,

At Singapore University of Social Sciences (formerly known as SIM University), we believe that everyone should have access to a good education and prospects for a better future at every stage of life.

Even as we widen learning opportunities by offering different pathways to suit diverse individuals, we ensure that we build learning around them; learning that meets their aspirations and needs, as well as those of industry and society.

We engage highly experienced industry experts and academia to develop quality curricula and methods of teaching and learning that impart up-to-date industry-relevant knowledge and skills. Our students can “learn today, apply tomorrow”, and be equipped with that competitive advantage that enhances their value in the marketplace. And with many interaction opportunities, they will also benefit from the valuable real-world experiences of their peers who come from diverse backgrounds.

We understand that students may have hectic schedules. To better cater to them, we empower them to learn whenever they want and wherever they are through our technology-powered learning resources. We also enable them to learn at their own pace with our modular programme structure.

Many of our students enjoy government tuition grants or subsidies, and have access to financial assistance schemes including bursaries, tuition fees and study loans.

Over 14,000 students and 27,860 alumni have chosen us for our high academic standards, programme quality and diversity, applied focus, social conscious emphasis, flexible learning environment and strategic partnerships.

Join us just as they have. Choose from over 40 undergraduate programmes in this prospectus to begin your learning journey with us. Whatever your goals, background or life stage, we believe in you, and we will equip you with the real-world knowledge and practice-oriented skills to excel, both in life and in your chosen career.

Professor Cheong Hee Kiat

Engaging industry-relevant curricula
Government tuition grant or subsidy for eligible students

Facilities & Services

Room to Think and Grow
Singapore University of Social Sciences offers a well-equipped learning environment with over 220 lecture theatres, tutorial rooms, seminar rooms, computer labs and specialist labs.

Resources at Your Fingertips
Besides our Tay Eng Soon Library and on-campus bookshop, our online resource library lets you access academic materials anytime, anywhere.

Play as You Learn
Take a break at our cosy lounge, get connected at our interactive lounge, or just network and socialise at the various cafeterias conveniently located around the campus.

Value-added Services
For greater flexibility and self-directed learning, our learning management system lets you attend online courses anywhere supported by digital learning content, virtual forum discussions, videos and webinars. Additionally, your MyMail email facilitates seamless communication between you, your lecturers, faculty members and the university.

Easily Accessible Location
With numerous buses and an MRT line serving the neighbourhood, you’ll spend less time travelling to and from our campus, and more time learning, networking and building a better future for yourself.
Passion To Create Positive Change. Let SUSS help you realise your passion to make a difference in society. Our commitment to social development has led us to design a uniquely inclusive, practice-oriented pedagogy. This not only equips you with job-ready skills, but also develops you into a self-directed lifelong learner with exceptional social awareness, ethics and values. By cultivating your sense of “Head”, “Heart” and “Habit”, we help you realise your dream of a future that is rewarding to you, and enriching to all.

JOIN THE U THAT BELIEVES IN U.
Our emphasis on preparing learners for the real world is unparalleled. We adopt a practical learning approach that provides you with critical applied skills that turn you into industry-ready professionals the moment you step into the workforce.

Our faculty comprises distinguished, highly-experienced professionals from a host of industries and from various parts of the world. Through them, you gain a potent combination of insightful knowledge relevant to your career, and global perspectives that help you deal with real work-life situations.

As a university for learners from different life stages and with diverse needs, we have created uniquely flexible conditions that let students learn on their own terms.

For part-time undergraduates, you may choose to complete your degree in as short as three years, or up to eight years, while full-time undergraduates may pick a duration between four and six years. By selecting modular courses to suit your time commitments or learning pace, you can design a learning process that revolves around your preferences.

Busy parents or time-strapped individuals will find our remote e-learning exceptionally useful. Invaluable face-to-face classroom interaction is complemented by instructor-facilitated online forums and virtual classes, thus letting you enjoy the full learning experience even from the comfort of your home. It’s the ideal way to balance learning and life’s responsibilities.
At Singapore University of Social Sciences, we believe that everyone can be a force for positive change. That’s why our full-time undergraduate programmes are designed differently. Our curriculum equips you with the three essential qualities of “Head”, “Heart” and “Habit” that enable you to reach your goals while making a positive impact in society.

**3H’s**

**Head**
- Professionally competent and job-ready, with applied skills

**Heart**
- Socially conscious with a desire to make positive changes in society

**Habit**
- A self-directed and lifelong learner with strong ethics and values

**SERVICE-LEARNING**

We believe in socially responsible citizenship, and service-learning is at the very heart of our social mission.

As a full-time student, you will be able to further develop and act on your pre-existing sense of social responsibility, to contribute meaningfully to society. By engaging in close collaboration with community partners of your choice, you will discover, develop and deliver a service-learning endeavour that you are passionate about. Sustained over two years or more, you will take personal ownership over your contributions. This way you will learn through experience on how to make a sustainable difference in the community. At Singapore University of Social Sciences, we prepare you for an active, fulfilling and meaningful life.

**LIFELONG EDUCATIONAL OPPORTUNITIES FOR DIVERSE LEARNERS**

Access to quality education should be available to everyone at any stage in their lives. It is the cornerstone of our educational philosophy.

As an institution originally established to provide higher education and professional training, Singapore University of Social Sciences offers, from inception, a pedagogy that is designed for diverse learners. Whether you are a school leaver pursuing a degree, or a busy professional looking to upgrade your skills, you’ll find the learning opportunities you seek at Singapore University of Social Sciences. In fact, ours is an unconventional learning environment that thrives on bringing different people together, each possessing unique talents and experiences that can benefit as well as broaden the perspectives of fellow learners.
Learning To Advance One And All. Whether you are a school leaver, a diploma holder or an experienced professional, you possess talents and experiences that can benefit others. SUSS offers an unconventional learning environment that transforms diversity into real-world advantages. Our commitment to social development has led us to design a practice-oriented education. This not only imparts job-ready skills, but develops you into a self-directed lifelong learner with exceptional social awareness, ethics and values. By cultivating your sense of “Head”, “Heart” and “Habit”, we help you realise your dream of a future that is rewarding to you, and enriching to all.

JOIN THE U THAT BELIEVES IN U.
The School of Arts and Social Sciences provides an exciting and well-rounded education in languages, literature and the social sciences. Our programmes develop informed individuals with the practical skills and specialised knowledge needed to excel in their chosen careers. Graduates can expect to find employment in the public and civil services as well as the corporate sector.

PART-TIME UNDERGRADUATE PROGRAMMES

Bachelor of Communication
With its strong emphasis on strategic communication, media management and digital media, this programme prepares you to perform competently in a variety of sub-fields in the communication industry such as media management, marketing communication, digital media, media writing, strategic communication, public relations, as well as corporate communication. You may pursue Communication as a single subject, or opt for a minor in Business, Film Studies, Psychology, Sociology, or Translation.

BA Chinese Language and Literature
This programme is designed to help working adults improve their Chinese language competency and knowledge of Chinese linguistics, literature and culture. The Chinese literature component presents the development of literature from the classics to contemporary works, while the language courses equip students with the knowledge of Chinese pronunciation, vocabulary, grammar and writing. Students will find themselves equipped with the skills and competencies needed to have a fulfilling career. You may pursue the programme as a single subject, or opt for a minor in Translation.

BA English Language and Literature*
This programme combines the disciplines of language studies and literature. The linguistics courses will deepen your understanding of the language system and broaden your perspective on language use and discourse in society. The literature courses introduce you to a range of literary genres, periods and styles, and teach you to critically analyse texts using key concepts and theories. You may opt for a minor in Business, Film Studies, Psychology, Sociology or Translation.

BA Malay Language and Literature
Designed to provide Malay language teachers, and those keen on exploring the Malay language, with an opportunity to upgrade themselves, this programme covers a wide range of topics including Malay linguistics, culture, literature, grammar, teaching of the language and translation. It will give you an in-depth understanding of the Malay world and will empower you to apply this learning in the teaching profession or other fields of applied linguistics like editing, translating and interpreting.

BA Tamil Language and Literature
This programme offers Tamil language teachers and Tamil studies enthusiasts an opportunity to pursue a degree. Jointly developed by Singapore University of Social Sciences and scholars from Tamil Nadu, this programme, while similar to that offered in Tamil Nadu, integrates local content to make it more relevant to students in Singapore. You may opt for a minor in Communication or English Language.

BA Translation and Interpretation
This unique programme gives students the opportunity to develop their bilingual competences in Chinese and English, and professional translation skills. It covers fundamental theories, advanced skills and the latest trends in translation and interpretation. Its bilingual and interdisciplinary nature offers graduates more career options in professions that demand good bilingual skills and cross-cultural sensitivity. Students may study Translation as a single subject or opt for a minor in Business, Film Studies, Information Technology or Political Science.

BA Sociology
Covering a wide range of contemporary social issues to provide a social, cultural and political analysis of society and human behaviour, this programme trains you to apply analytical, theoretical and research skills to understand social trends and policy issues relating to social change, health and medicine, family, gender, education, urban sociology, law and order, and popular culture, among others. These are studied in light of the developments in Singapore, regionally as well as within the global context, and will prepare you for a variety of industries and professions. You may pursue Sociology as a single subject or in combination with a minor in Communication, Contemporary China Studies, Film Studies, Political Science, Psychology or Security Studies.

BSc/BA Psychology*
A broad-based programme covering a range of theoretical, conceptual, analytical and functional skills in Psychology. You will receive a comprehensive education in Psychology, and you may choose from specialised electives such as in organisational/work psychology, educational psychology and health psychology/well-being. You may pursue Psychology as a single subject or as a programme in combination with Business, Communication, Film Studies, Marketing, Multimedia, Political Science, Psychology, Sociology or Translation.

* Students who perform well academically in the basic degree programme may be invited to pursue the honours programme, which will be offered only if the requisite number of students sign up.
The School of Business offers many degree programmes to cater to the different aspirations of our students and every programme is designed to prepare you to become competent future managers/business professionals and to excel in your chosen roles in a highly competitive business landscape. Our programmes will equip you with relevant business fundamentals to meet the challenges of the digital economy, and also the required capabilities to fulfill the needs of your chosen profession and/or industry. You will be exposed to a good mix of theoretical and practical learning so that you can fully acquire the relevant knowledge and various professional skills needed to be an effective leader and decision-maker in an organisation.

Bachelor of Accountancy*
To help meet the growing demand for qualified accountants as Singapore moves towards becoming an accounting hub and global financial centre, this programme provides you with broad general business skills, as well as strong academic and professional training in financial accounting, management accounting, assurance and taxation. The Singapore Accountancy Commission (SAC) has accredited the Bachelor of Accountancy Degree for direct entry to the Singapore CA Qualification. You will have the opportunity to work in an Accredited Training Organisation (in your 24-week work attachment) to gain practical job knowledge and skills.

BSc Marketing with Minor*
This programme is designed to provide you with current specialised marketing knowledge and additional expertise in business and general management. Marketing is a critical business function in any organisation, and career prospects are bright for skilled marketing professionals. Through this programme, you will acquire the critical managerial, numerical and analytical skills needed to become an effective marketing professional. In addition, you will gain vital networking, presentation and team-building skills, essential for success in an increasingly competitive business environment. Graduates can look forward to promising marketing careers in areas such as sales, advertising and promotion, corporate communication, product management, marketing research, retail marketing and international marketing.

BSc Supply Chain Management with Minor*
The logistics and supply chain management (SCM) industry is a key pillar of Singapore’s economy. Global companies in growth sectors – such as aerospace, biomedical sciences, chemical, energy, oil and gas equipment, technology, and high-value collectibles – have chosen Singapore as their key global and regional base in Asia. These global players present new opportunities in the logistics related industries for trained professionals to be deployed and to develop innovative solutions to meet the organisations’ complex needs. This programme is designed to support the demand for logistics and SCM talents. Upon graduation, you can look forward to promising careers in areas such as supply chain planning, logistics and transport, inventory and warehousing, port/airport management, trade and pricing, and procurement.

BSc Business Analytics with Minor*
Identified by EDB as a growth sector that will contribute S$1 billion to Singapore’s economy by 2017, business analytics is a growing field that requires an increasing number of highly-trained professionals. This four-year direct honours programme combines rigorous training in a variety of techniques – ranging from visualisation and data mining to forecasting and optimisation – with exposure to relevant software, developing you into a skilled business analytics practitioner. After successful completion of the programme, you can look forward to exciting careers in a wide range of sectors such as government, healthcare, business, and social services.

BSc Finance with Minor*
For those who are keen to learn about finance fundamentals and ultimately pursue a career in the financial industry, this programme offers a curriculum that covers Levels I and II of the Chartered Financial Analyst® (CFA®) examination requirements for students keen to pursue a CFA® certification. Furthermore, the programme synergises with the Financial Planning Association of Singapore (FPAS) curriculum by providing financial planning courses to prepare students for the Certified Financial Planner™ (CFP®) certification. Students who complete selected courses will receive relevant exemptions from the CFP® examinations.

BSc Marketing with Minor*
This programme is designed to provide you with current specialised marketing knowledge and additional expertise in business and general management. Marketing is a critical business function in any organisation, and career prospects are bright for skilled marketing professionals. Through this programme, you will acquire the critical managerial, numerical and analytical skills needed to become an effective marketing professional. In addition, you will gain vital networking, presentation and team-building skills, essential for success in an increasingly competitive business environment. Graduates can look forward to promising marketing careers in areas such as sales, advertising and promotion, corporate communication, product management, marketing research, retail marketing and international marketing.

The School of Human Development and Social Services provides programmes to equip the learners with the values, skills and knowledge to transform and enrich lives through their respective practices in a diverse blend of social disciplines. These programmes include counselling, social work, human resource management and early childhood education. Not only will these provide the basis for professional practices, they will open up a wealth of career opportunities, allowing you to seek employment from social services to corporate sectors.

FULL-TIME UNDERGRADUATE PROGRAMMES

Bachelor of Early Childhood Education with Minor*
As world governments increase their focus on healthy development of young children, early childhood education has become an in-demand career because of families’ needs and an increased awareness that the early years are crucial for a child’s lifelong development. Well-prepared early childhood educators can enter multi-disciplinary work beyond just kindergarten and child care work. This programme not only prepares you for professions in kindergartens and child care centres, but it also equips you with vital skills and qualities that bring about genuine improvements in the lives of young children. Graduates from the programme can look forward to fulfilling careers in education and community work, social entrepreneurship, as well as governmental and non-governmental organisations.

Bachelor of Social Work with Minor*
With a rich history in enhancing human well-being, social work remains as a dynamic profession that evolves to meet emerging social needs and conditions. The recent blossoming of the social services sector in Singapore has encouraged young people to make social work their career choice. This programme equips you with theoretical knowledge and a repertoire of skills to work with diverse population groups at multiple levels—individual, group, family, organisation, and the larger community, as well as in different practice settings. You will also gain knowledge and skills in the areas of social policy and planning, social welfare administration, and social advocacy, to enable you to promote social change and development. As an undergraduate, you will be required to complete 1000 hours of supervised social work field education in different social work settings. Graduates can look forward to enriching careers in family service centres, children and youth services, elderly services, hospitals, voluntary welfare organisations and government agencies.

Bachelor of Human Resource Management with Minor*
This programme is Singapore’s first and only full-time bachelor degree in Human Resource Management (HRM). The field is experiencing huge growth as Singapore consolidates its position as the leading centre for finance and business in Southeast Asia, meaning that there has never been a better time to study HRM. Our programme offers a uniquely strategic perspective, integrating specialist training in HRM and a minor topic with instruction in other key business functions. Upon graduation, you can look forward to rewarding careers in areas such as recruitment, training and development, compensation and benefits, employee relations and organisational development.

Bachelor of Social Work with Minor*
With a rich history in enhancing human well-being, social work remains as a dynamic profession that evolves to meet emerging social needs and conditions. * This is a direct honours programme. Graduating students who meet the honours eligibility criteria will be awarded the respective honours classification.

SCHOOL OF HUMAN DEVELOPMENT AND SOCIAL SERVICES
Bachelor of Counselling
This programme is specially designed to equip you with the essential skills for the role of a counsellor. It offers a mix of theoretical knowledge, research insights as well as practical skills in counselling. The practice-oriented programme supports aspects of life span issues and specialised topics in the helping profession.

Bachelor of Early Childhood Education
A key feature of this programme is its strong theory-practice links. This enables early childhood educators to apply their knowledge and skills directly to their work settings. Through the integration of an enriching range of courses in early childhood and minors in Psychology, Sociology, Management, Chinese Language, Malay Language, Tamil Language, Art Education and Music Education, the programme serves to extend practitioners’ competencies in curriculum, pedagogy, management, and related fields for children and families.

Bachelor of Early Childhood and Chinese Language Education
This programme aims to enhance the professional development of Chinese language pre-school teachers. It offers you a wide range of courses including early childhood curriculum and pedagogy, child growth and development, children’s literature, Chinese phonetics and lexicology as well as Chinese grammar and rhetoric.

Bachelor of Human Resource Management
This tailored programme produces contemporary human resource professionals who are not only skilled in dealing with age-old human resource issues, but are also proficient in managing evolving issues that result from organisational overhauls, human capital mobility and technological advances. The programme integrates essential social science topics and core business competencies via an in-depth coverage of human resource core competencies. You may pursue Human Resource Management as a single subject, or in combination with a minor in Security Studies.

Bachelor of Social Work*
Emerging from the key foundational components of social work theory and practice, the focus of this programme is on the mastery and integration of an eclectic knowledge base and a broad spectrum of skills. A wide range of theoretical knowledge and practice skills underlying social work practice will be covered. All these will prepare graduates in utilising a common helping process on multiple levels — with individuals, families, groups, organisations and communities and in implementing a wide range of intervention roles including advocate, broker, case manager, counsellor, group educator and mediator. This programme will also prepare graduates to practice in a variety of settings and with diverse populations.

Bachelor of Art Education*
Offering you a blend of pedagogical knowledge and skills that are tailored to practising teachers and those interested in art education, the courses in this programme provide an ideal balance of training in the areas of art pedagogies, art studio practice, curriculum and assessment, and art theory. Courses range from Study of Visual Images in Schools and Art Curriculum Planning to Assessment in Art and Design and Art Criticism. Developed in consultation with the Singapore Teachers’ Academy for the arts (STAr), Ministry of Education, this programme truly differentiates itself from other art education programmes in Singapore in terms of depth and breadth of education.

Bachelor of Music Education*
This programme imparts to you a combination of knowledge and skills that are relevant to music teachers and those interested in music education. Developed in consultation with the Singapore Teachers’ Academy for the arts (STAr), Ministry of Education, the programme educates you on topics in music pedagogies, curriculum instructional design and assessment, music practice and music content such as Methods and Approaches in Kodály, Orff Schulwerk and Dalcroze Eurhythmics, Pedagogy of Ethnomusicology and Assessing Music Learning, among others.

Bachelor of General Studies*
This broad-based programme gives you the freedom to design your own course of study by selecting from more than 60 programmes and over 200 courses. The resulting course of study may be specialised or multi-disciplinary in nature. The total flexibility of customising your curriculum plan gives you the opportunity to experience a truly unique and broad-based university education.

Bachelor of Human Resource Management
This programme offers a combination of knowledge and skills in managing human resource issues and professional development in managing evolving issues that result from organisational overhauls, human capital mobility and technological advances. The programme integrates essential social science topics and core business competencies via an in-depth coverage of human resource core competencies. You may pursue Human Resource Management as a single subject, or in combination with a minor in Security Studies.

Bachelor of Social Work*
Emerging from the key foundational components of social work theory and practice, the focus of this programme is on the mastery and integration of an eclectic knowledge base and a broad spectrum of skills. A wide range of theoretical knowledge and practice skills underlying social work practice will be covered. All these will prepare graduates in utilising a common helping process on multiple levels — with individuals, families, groups, organisations and communities and in implementing a wide range of intervention roles including advocate, broker, case manager, counsellor, group educator and mediator. This programme will also prepare graduates to practice in a variety of settings and with diverse populations.

* This programme is offered with a Minor in Management or Psychology.
* Students who perform well academically in the basic degree programme may be invited to pursue the honours programme, which will be offered only if the requisite number of students sign up.
* This programme is managed by the Centre for Continuing and Professional Education (CCPE).
The School of Law trains and produces high calibre lawyers specialising in the areas of Criminal Law and Family Law. The following programmes adopt a pedagogical approach that emphasises problem-solving by combining the learning of substantive law with application. Together with exposure to cross-disciplinary areas, our graduates will be prepared to face criminal and family legal work that have become increasingly specialised over time.

Bachelor of Laws, Juris Doctor
These programmes develop you into a lawyer within the legal community who specialises in Criminal Law or Family Law practices. They provide you with in-depth training as well as exposure to cross-disciplinary areas like sociology, social work and criminology that will arm you with the ability to approach issues from more holistic angles. Bachelor of Laws students will take additional 30 credit units of electives from the areas of law, psychology or social work. In your final year of study you will be required to attend and complete a Legal Clerkship Programme that will provide structured training in the application of legal and professional knowledge in real-life situations. Both degrees are recognised under the Legal Profession Act, and as long as you graduate with a GPA of 3.5, you will become a ‘qualified person’ under the Legal Profession Act and shall be eligible to sit for Part B of the Bar Examinations.
The School of Science and Technology produces professionals who explore the wonders of science and push the limits of technological advancement in modern societies. From IT and electronics to life sciences and human factors, the following programmes will provide you with the depth of knowledge and breadth of know-how to excel in careers that are dedicated to enhancing our quality of life through innovative new possibilities.

PART-TIME UNDERGRADUATE PROGRAMMES

Bachelor of Building and Project Management*
This enriching programme equips you with a repertoire of specialist knowledge and skills for the productive management of projects. You will be trained in competencies including interdisciplinary studies in building design and technology, construction management, international project management, contract administration and safety management.

BEng Electronics*1
To provide technical depth and breadth to prepare you for a rewarding career in the electronics industry, this programme is structured to develop and train you with an in-depth knowledge of electronics, telecommunications and IT. It is accredited by the Engineering Accreditation Board (EAB), the Institution of Engineers, Singapore (IES).

BEng Aerospace Systems*1
Offering you a wide spectrum of courses specialising in aeronautics, aeronautics and aerospace management, this programme is designed for individuals aspiring to excel in the aerospace industry as well as those of you who are keen on enhancing your knowledge, skills and understanding of aviation.

BSc Biomedical Engineering*1
Combining engineering concepts with the world of life sciences to address biomedical engineering issues, this programme provides you with the knowledge and skills in areas related to the medical device industry, engineering consulting, healthcare and life sciences industries. You may pursue Biomedical Engineering as a single subject or in combination with a minor in Paramedicine and Emergency Response.

BSc Facilities and Events Management*6
This innovative programme integrates facilities expertise with events management, resulting in a curriculum that gives you a firm foundation in the two specialised fields, as well as leadership, planning, design, finance, communication and management skills.

BSc Human Factors in Safety*3
Equipping you with the know-how for anticipating, assessing and controlling workplace safety and health (WSH) hazards and for performing WSH audits, this programme provides you with skills and abilities to evaluate and design or redesign equipment, workplaces, environments and systems to improve safety and optimise performance using human factor principles and methodology. It is recognised by MOM for WSH Officer Registration.

BSc Information Technology and Business (ERP)*2
This honours programme incorporates technical IT and business-specific courses together with specialised ERP courses from SAP, the worldwide leader in ERP software. The added specialisation from SAP ensures that you will be industry-ready and well prepared for a multitude of careers in the inforomind industry and IT end-user organisations.

BSc Information and Communications Technology*2
While offering you industry certification and practitioner-oriented courses, this programme also equips you with a strong foundation in the various technologies related to the handling and processing of information. It also covers specialist knowledge of both OS and database management and IT service and project management. You may pursue this programme as a single subject, or in combination with a minor in Security Studies.

BSc Mathematics
With the aim of cultivating in you an appreciation for and understanding of mathematics as well as critical thinking skills for real-life problem-solving, this programme covers various branches of pure mathematics, applied mathematics and statistics.

BSc Multimedia Technology and Design*2
This programme offers you the opportunity to develop in-depth knowledge in areas such as photography, web design, filmmaking and 3D modelling. Its unique multi-disciplinary scope combines creative design with advanced media technologies by integrating aspects of visual design, media technologies, computer technologies, usability and communication.

* Students who perform well academically in the basic degree programme may be invited to pursue the honours programme, which will be offered only if the requisite number of students sign up. Graduating students who meet the eligibility criteria for an honours classification will be awarded an honours degree based on the aggregate academic performance measured by the cumulative grade point average (CGPA) assessed throughout the degree programme.

* Students are required to complete a total of 170 credit units (cu) of courses, inclusive of 10 cu of university core courses in order to graduate. Graduating students who meet the eligibility criteria for an honours classification will be awarded an honours degree based on aggregate academic performance measured by the cumulative grade point average (CGPA) assessed throughout the degree programme.

* Students in this programme are automatically members of the Singapore Computer Society Student Chapter.

* Students in this programme are eligible to register for student membership with the Institution of engineers, Singapore (IES).

Ambition To Build A Better Tomorrow. Whether you are a busy mother, or a time-strapped executive, you can make a positive impact in society. Our modular programmes, combined with remote learning facilities, offer unparalleled flexibility for learners with hectic lifestyles. As a university committed to social development, SUSS offers a uniquely inclusive, practice-oriented education. This not only equips you with job-ready skills, but also develops you into a self-directed lifelong learner with exceptional social awareness, ethics and values. By cultivating your sense of “Head”, “Heart” and “Habit”, we help you realise your dream of a future that is rewarding to you, and enriching to all.
**FULL-TIME UNDERGRADUATE PROGRAMMES**

1. Singapore Citizen or Singapore Permanent Resident
2. GCE ‘A’ Level with at least 3 passes in H2 content subjects and attempts at GP, MTL, and PW, or
   - Local Polytechnic Diploma with a pass in GCE ‘O’ Level English, or
   - International Baccalaureate (IB) School Diploma, or
   - NUS High School Diploma, or
   - Other equivalent qualification with SAT

All applicants must meet the Mother Tongue Language (MTL) requirement of their respective certifications. For more information, please visit uc.suss.edu.sg/admission.html

**PART-TIME UNDERGRADUATE PROGRAMMES**

1. Singapore Citizen, Singapore Permanent Resident or a resident of Singapore
2. At least 21 years old
3. At least two years of full-time work experience or is currently under full-time employment
4. GCE ‘A’ Level with two passes (prior to 2006), or
   - Two H2 passes (from 2006), or
   - Local Polytechnic Diploma, or
   - International Baccalaureate (IB) School Diploma, or
   - NUS High School Diploma, or
   - Other equivalent qualification with SAT

**LAW PROGRAMMES**

**BACHELOR OF LAWS (LLB)**

1. Singapore Citizen, Singapore Permanent Resident or a resident of Singapore
2. GCE ‘A’ Level (3 subjects at H2 level) or a local Polytechnic Diploma, or the International Baccalaureate (IB) School Diploma, or a NUS High School Diploma
3. Minimum grade for Mother Tongue Language
4. Completion of Law National Aptitude Test (LNAT)

Additionally, applicants (other than fresh school leavers with ‘A’ Level or diploma certificates) will also be required to provide a full resume detailing their work experience. Submission of a personal statement with supporting evidence detailing aspirations and motivations is required.

1 Please refer to http://www.suss.edu.sg/law for more details on the minimum grade required for Mother Tongue Language.
2 LNAT is a registered trademark of LNAT Consortium Limited. Details of the test, including training for it, is available at http://www.lnat.ac.uk.

**JURIS DOCTOR (JD)**

1. Singapore Citizen, Singapore Permanent Resident or a resident of Singapore
2. Bachelor’s Degree
3. Minimum grade for Mother Tongue Language
4. Completion of Law National Aptitude Test (LNAT)
5. Work Experience (relevant fields such as Social Work and Enforcement Agencies are preferred)

Full-time undergraduate programmes: enrolment starts annually in July.
Part-time undergraduate programmes: enrolment starts biannually in January and July.
Law programmes: enrolment starts annually in January.
Shortlisted applicants will be required to undergo the admission interview(s) and/or take written evaluation tests prescribed by the university. Applications will be considered individually on merit, and the offer of admission will depend on the number of places available. Admission is solely at the discretion of Singapore University of Social Sciences.

Admission application must be made online at suss.edu.sg
TUITION FEES

Our tuition fees are on par with those of other local universities. The course fees you pay depend on the number of courses you take in a semester. Course fees cover all study materials, classes, tutor supervision, assignments and examinations. They do not include fees for other additional items specified by Singapore University of Social Sciences from time to time.

Please visit suss.edu.sg for current tuition fees. Fees reflected are after Tuition Grant or Tuition Fee Subsidy.

TUITION GRANT AND TUITION FEE SUBSIDY

The Tuition Grant Scheme (TGS) was introduced by the Singapore Government to subsidise the cost of tertiary education in Singapore. The TGS is extended to Singapore Citizen or Permanent Resident students enrolled for full-time undergraduate programmes at Singapore University of Social Sciences. Students who are awarded the Tuition Grant will pay the subsidised tuition fees.

The Tuition Fee Subsidy (TFS) from the Singapore Government comes in the form of a tuition grant administered by the Ministry of Education (MOE) and is offered to all eligible admitted students studying for a part-time undergraduate programme at Singapore University of Social Sciences. The TFS for each student is a percentage of the full tuition fee charged by Singapore University of Social Sciences. The MOE states that this tuition grant need not be repaid to the government.

You must meet the eligibility criteria to be awarded the Tuition Grant (full-time students) or Tuition Fee Subsidy (part-time students).

Please visit suss.edu.sg for eligibility criteria and further information.

SCHOLARSHIPS

(Part-time Undergraduate Programmes only)

The Singapore University of Social Sciences Scholarship recognises scholastic achievements, helps students achieve their study goals and opens the doors to a world of opportunities. The scholarship covers tuition, examination and other compulsory fees. There is no bond attached to the scholarship.

If you possess outstanding academic results, have an impressive track record in co-curricular activities, display a penchant for leadership, and exhibit zest for involvement in community service, you are invited to apply for the scholarship.

SPONSORSHIPS

(Part-time Undergraduate Programmes only)

Singapore University of Social Sciences offers joint sponsorships in partnership with established corporate organisations in Singapore. This is targeted at staff or members of the joint sponsor, and covers up to 80% of the tuition fees (inclusive of government fee subsidy). There is no bond attached to the sponsorship.

You’ll find more details on scholarships, sponsorships, and conditions of award at suss.edu.sg

SPIRIT AWARD

(Full-time Undergraduate Programmes only)

This award recognises and honours full-time undergraduate students who reflect the ‘Heart’ part of our educational philosophy of ‘Head, Heart and Habit’. Award winners are expected to demonstrate excellence in at least one of the following three categories of attributes: (a) character strength; (b) willingness to help others; and (c) social change leadership.

The award is not open for application. Instead, we welcome nominations from students, faculty and staff members. Ten awards valued at S$2,500 each will be given for the academic year to offset tuition fees.
Potential To Enrich Society. Everyone has the ability to build a better future for themselves and those around them. Maximise your potential with SUSS’s uniquely inclusive, practice-oriented education. This not only equips you with job-ready skills, but also develops you into a self-directed lifelong learner with exceptional social awareness, ethics and values. By cultivating your sense of “Head”, “Heart” and “Habit”, we help you realise your dream of a future that is rewarding to you, and enriching to all.

FINANCIAL AID
To ensure that no deserving student is denied a university education because of financial difficulty, financial assistance is available if you are in need.

SINGAPORE UNIVERSITY OF SOCIAL SCIENCES STUDY GRANTS
(Part-time Undergraduate Programmes only)
The Singapore University of Social Sciences Study Grants provide financial assistance to needy students. It is a monetary award based on your financial need and academic record. It can only be used for the course fees of the semester in which it is awarded.

CPF EDUCATION SCHEME
(Full-time Undergraduate Programmes only)
The Central Provident Fund (CPF) Education Scheme (CES) is available to eligible full-time undergraduate students who are paying subsidised tuition fees. These students may use their own, their spouses’ or their parents’ CPF savings to pay their tuition fees.

MENDAKI TERTIARY FEE SUBSIDY
(Full-time Undergraduate Programmes only)
The scheme is an education subsidy eligible for full-time Malay students who are Singapore Citizens to cover their tuition fees. With effect from 1 January 2011, students with Malay as their first component race of a double-barrelled race (e.g. Malay-Chinese) are also eligible.

CDC/CCC BURSARY
(Full-time Undergraduate Programmes only)
The Community Development Council/Citizens’ Consultative Committee (CDC/CCC) Bursary provides financial assistance to subsidised Singapore Citizens studying in MOE-subsidised full-time undergraduate programmes at Singapore University of Social Sciences. Monetary in nature, this Bursary is awarded based on financial needs.

MOE BURSARY
The MOE Bursary is funded by the Singapore Government and provides financial assistance to needy Singapore Citizens who are pursuing undergraduate programmes at Singapore University of Social Sciences. Monetary in nature, they are awarded based on financial needs.

MOE TUITION FEE LOAN AND STUDY LOAN
The MOE Tuition Fee Loan (TFL) and Study Loan (SL) schemes are Government education loans for needy Singapore Citizens who are pursuing undergraduate programmes at Singapore University of Social Sciences. The TFL covers up to 90% of the subsidised tuition fee payable, and the SL complements the TFL by providing a loan to cover up to the remaining 10% of tuition fees not covered by the TFL.

POST SECONDARY EDUCATION ACCOUNT SCHEME
The Post Secondary Education Account (PSEA) scheme is administered by the Ministry of Education and is open automatically to all eligible Singaporeans. Students may apply to use their own or their siblings’ PSEA to pay tuition fees.

Please visit sus.s.edu.sg for more details on financial aid.
